Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate varies by geographic area. For more information, see the 2009 American Community Survey Regions, subregions, and country code list.

While the 2005-2009 American Community Survey (ACS) data generally reflect the November 2008 OMB estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas as of 2000. For more information, see the 2009 American Community Survey Regions, subregions, and country code list.
